Subbass 16' (vorbereitet)

dazu elektronisch
Gedackt 8'
Prinzipal 8'

Oktave 4'

couplers:

Normalkoppeln

8 Setzerkombinationen

remarks:

Home-built house organ of a surveyor. The real registers, which stand on a sanding tray, are supplemented with electronically generated. The entire play area is electric. For the subbass valves are already provided, but no pipes installed. The system is accurate, the engine noise is very well insulated.

The perfect home organ for those who like to lend a hand and have an idea of electronics.
