Quinte 2 2/3' (Vorabzug)
Regaloboe 8'

Pedal
Subbass 16'

couplers:

Tremblant Doux

Koppeln
II – I (Schiebekoppel)
I – P
II - P

remarks:

Compact built and very well maintained home organ with key action in wood. The coupler is designed to interact with kick and slide and the casing is made of solid oak.

The key action is very differentiated and allows the finest nuances.

The pipes are made of 82% tin and are hand-pulled.

The veil work was taken with bolus and gold leaf. Particular value was placed in the construction of the quiet wind turbine with stable, quiet wind supply.

Due to the Bach-Billeter tuning, the keys can be displayed without losing their intrinsic characteristics.

Sales on behalf of the customer.
